

Leadership Skills Programme

**Becoming a better leader is an inside job.
But it takes a lot of outside help.**

A programme for senior executives keen to hone their leadership skills, improve personal and team performance as well as make a greater impact on their business.

The programme is aimed at senior executives keen to hone their leadership skills, improve personal and team performance as well as make a greater impact on their business.

Based on leadership ink's very practical "7 Steps to Great Leadership" approach we work alongside you, weaving tasks into your day-to-day work that are specifically designed to build and develop your leadership skills. We believe that 'on the job' learning is far more effective than classroom learning when it comes to embedding new skills. Over the course of 15 months we'll discover your own personal style and analyse the way you lead, then help you work more effectively with those around you. We'll introduce you (and in many cases re-introduce you) to some of the leading thinking on the topic of leadership and integrate recognised best practice within your daily routines. Throughout the programme we'll challenge you and support you as you become a better leader.

What's included in the programme?

Individual Assessment

We'll introduce you to Insights, our psychological profiling tool, and provide you with your individual report. We can also conduct a 360° review, to understand your current performance. Then we'll work with you to build a set of targets for you for the duration of the programme.

Face-to-face coaching sessions

We'll meet up with you in a series of bi-monthly 1-2-1 sessions to work on leadership topics from some of the great management thinkers to hone your leadership skills. We'll also work through your on-going challenges to provide some sharper solutions to your leadership issues.

On-going support

We'll be there to support you throughout the programme by phone, email or Skype to help deal with your leadership issues as they arise.

Regular 'blogs' direct to your inbox

We'll send you regular blogs, covering interesting leadership topics, to stimulate your thinking on your leadership journey.
